SUPPLEMENTARY INFORMATION:

Title: Reporting and Recording Requirements for 7 CFR Part 29.

OMB Number: 0581-0056.

Expiration Date of Approval: June 30, 2023.

Type of Request: Extension of a currently approved information collection.

Abstract: The Tobacco Inspection Act (7 U.S.C. 511-511s) requires that all tobacco sold at designated auction markets in the U.S. be inspected and graded. The Appropriations Act (7 U.S.C. 511s note) requires that all tobacco eligible for price support in the U.S. be inspected and graded. The Fair and Equitable Tobacco Reform Act of 2004 (7 U.S.C. 518-519a) eliminated price supports and marketing quotas for all tobacco beginning with the 2005 crop year. Mandatory inspection and grading of domestic and imported tobacco was eliminated as well as the mandatory pesticide testing of imported tobacco and the tobacco market news program. The Tobacco Inspection Act also provides for interested parties to request inspection, pesticide testing, and grading services on a permissive basis. The information collection requirements authorized for the programs under the Tobacco Inspection Act and the Appropriations Act include: application for inspection of tobacco, application and other information used in the approval of new auction markets or the extension of services to designated tobacco markets, and the information required to be provided in connection with auction and nonauction sales.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 1.60 hours per response.

Respondents: Primarily tobacco companies, tobacco manufacturers, import inspectors, and small businesses or organizations.

Estimated Number of Respondents: 50

Estimated Number of Responses per Respondent: 48

Estimated Number of Responses: 2,415

Estimated Total Annual Burden on Respondents: 3,651

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.
